

VITA 2.0

600x1200mm | Glazed Vitrified Tiles

colortile
ceramics & innovation

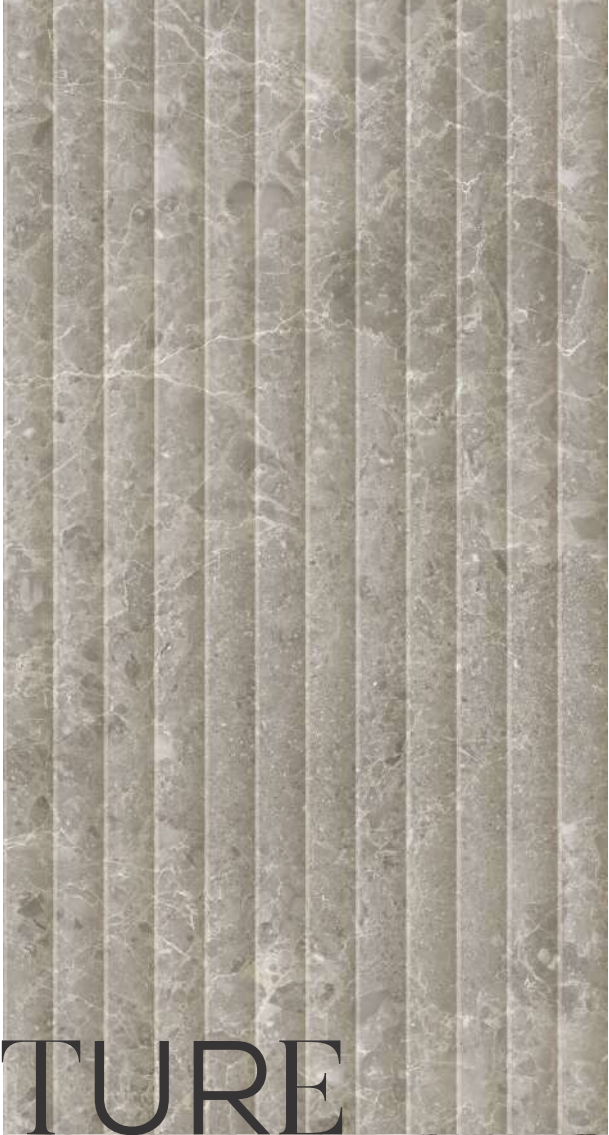

The Vita 2.0 Collection carries forward the legacy of the Vita Collection with impressions rich as time itself, yet contemporary.

EXPERIENCE SOMETHING TACTILE & HONEST

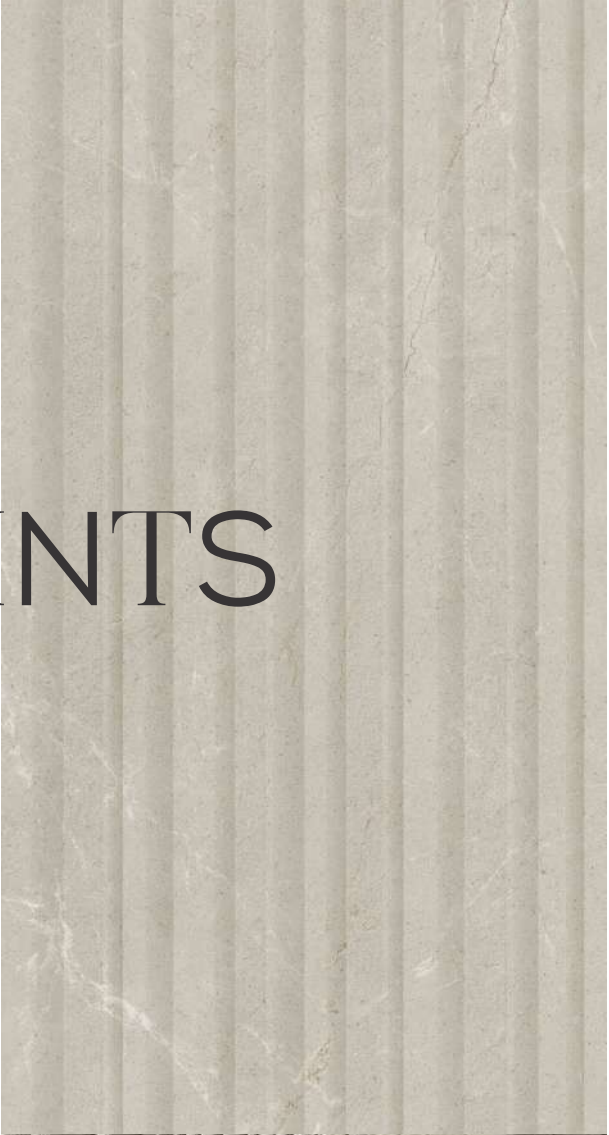

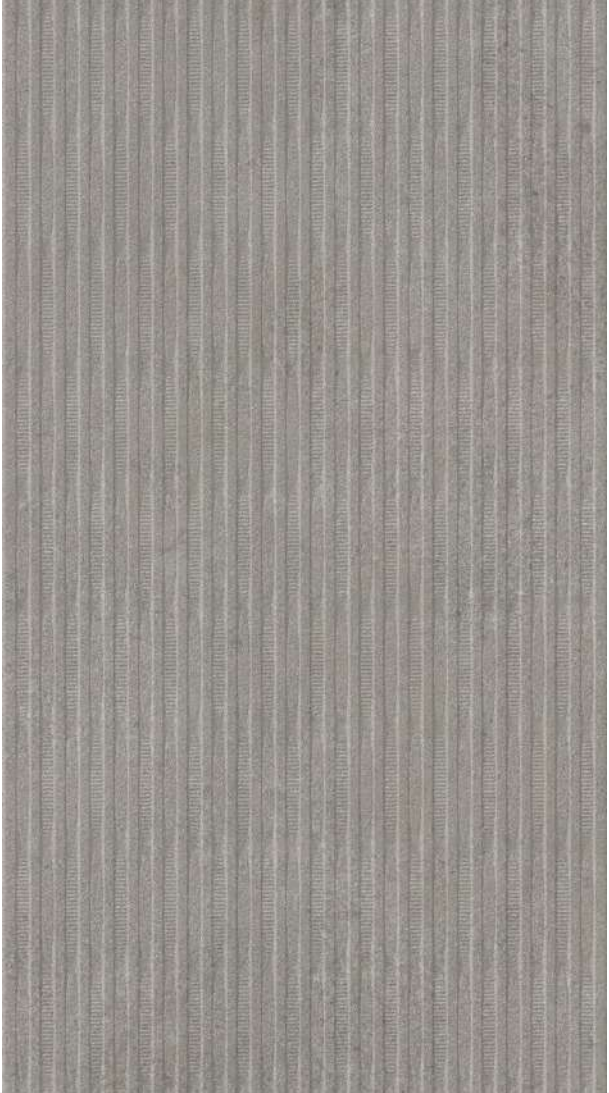

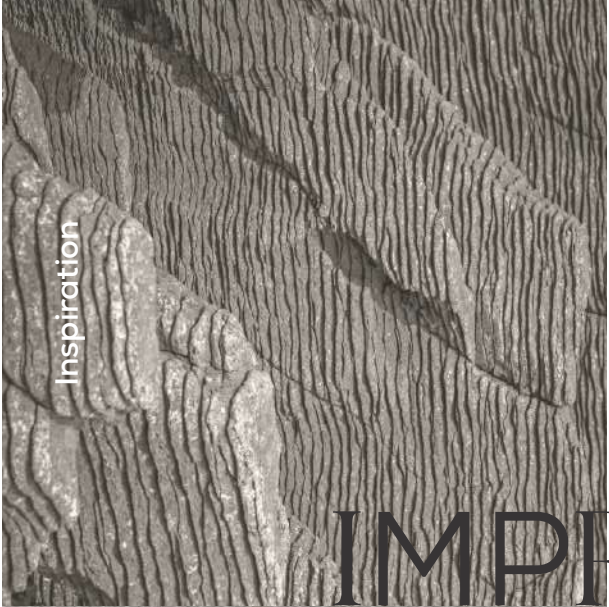

The Vita 2.0 Collection is an effort to bring surfaces that are a physical archive of beautiful impressions carved by nature, humans, settlements, and more. The collection is inspired by the ever-changing landscapes, terrains, and places around us, as well as the memories they hold of wind, erosion, and the people who lived there, and what happened to them.

These rich impressions are translated into the surfaces of the collection, bringing you honest tactile experiences of time wrapped in elegance to decorate your spaces, to walk on, and to feel the shifts beneath your feet and fingertips.

GENTLE ACCENTS

SURFACE:
TEXTURED MATT

The Vita 2.0 Collection is curated across two structured surfaces to better complement the collection's accents. Textured Matt, a structured offering, strikes a refined balance between softness and strength, while the Rustic Matt features a richly detailed surface that captures the organic feel of nature's raw beauty. Both surfaces bring depth and character to spaces.

SURFACE:
RUSTIC MATT

VITA 2.0

The Vita 2.0 Collection by Colortile is a sophisticated and inventive curation of versatile colors, size, and surfaces.

Drawing inspiration from natural terrains, each tile embodies the warmth, the texture, and depth of the earth, a perfect harmony for modern interiors and timeless architecture alike.

17

INTRINSIC &
INTRICATE PALETTE

The surfaces brings an air of classical rhythm to contemporary design. Their flowing contours create a harmonious dance of shadow and light.

SOFTLY
SCULPTED
AND
TIMELESSLY
ELEGANT

Inspired by architectural columns and natural erosion, the surfaces reinterpret traditional grooves into a modern expression of refinement. Each ridge is a gentle statement of depth, giving walls and floors a tactile grace that invites touch. The surfaces play beautifully with light, subtly shifting in tone throughout the day, creating a living texture that enhances modern interiors with timeless charm.

Linear and refined, the soft impressions evoke movement, adding life and continuity to the spaces they inhabit.

EXPERIENCE THE ORGANIC RHYTHM OF NATURE'S PATHWAYS

The surfaces reflect the traces left by wind, water, and time, a design shaped by motion and memory. their continuous linear design adds direction and fluidity, guiding the eye through space while maintaining balance and calm. The result is surfaces that feel effortlessly organic, transforming contemporary interiors with subtle depth and flowing sophistication.

The surfaces tell a story of time layered upon the earth's surface, a quiet record of nature's artistry. Their delicate textures evoke warmth, age, and authenticity in every detail.

A QUIET AND LAYERED RECORD OF NATURE'S ARTISTRY

Drawing inspiration from sedimentary formations and wind-carved terrain, The surfaces embody the poetry of layered landscapes. The surfaces' fine lines and intricate textures lend an understated richness, perfect for interiors that celebrate material honesty and tactile depth. The pattern feels naturally evolved, offering a grounded elegance that complements both modern and timeless architecture.

Strong and balanced, the surfaces add sculptural definition to contemporary design. Their pronounced structure enhances spatial rhythm.

ARCHITECTURAL STATEMENT THAT IS BOTH BOLD & REFINED

The surfaces channel the beauty of form and order, bringing structured elegance to modern spaces. Each raised line accentuates light and shadow, highlighting the geometry of surfaces while maintaining a sense of tactility and warmth. Designed to harmonize with minimalist or textured interiors, the surfaces stand as a symbol of precision, depth, and timeless architectural grace.

Installation

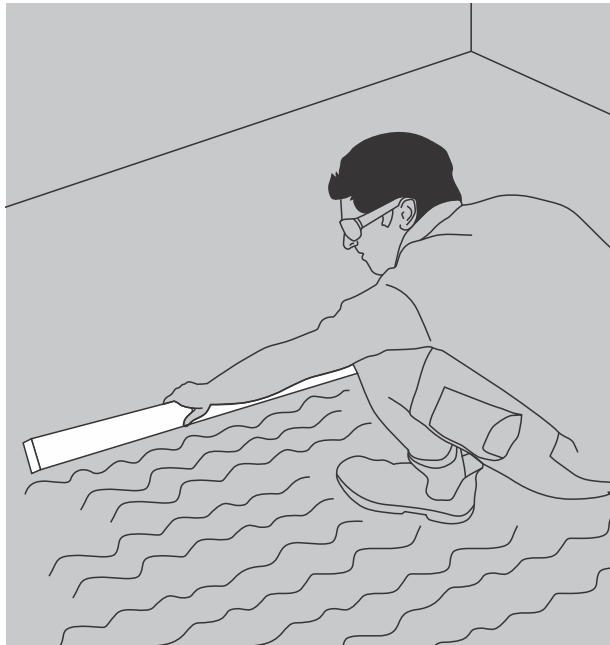

Step 1

Choose tiles that suit the room size and the style of your home. Smaller spaces are suited for bigger and pale-colored tiles to increase size and ventilation levels, but many kitchen and bathroom spaces have smaller tiles.

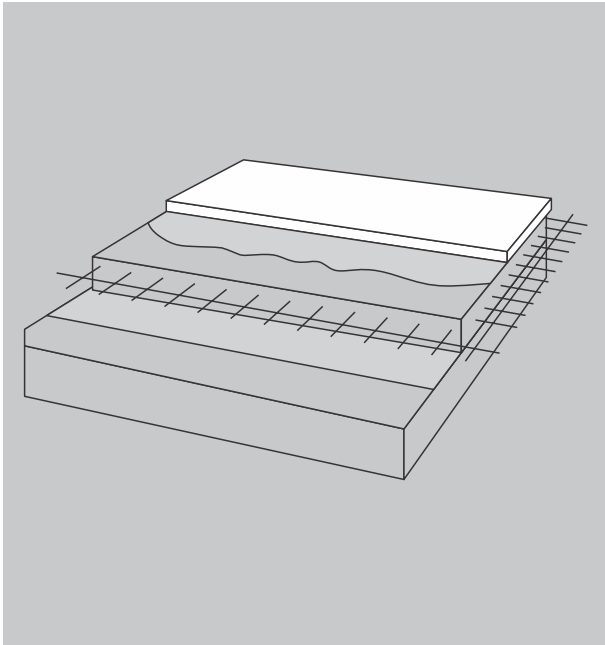

Step 3

Check that the surface is smooth and structurally sound before Begin tile fixing work and ensure the site has proper lighting and ventilation.

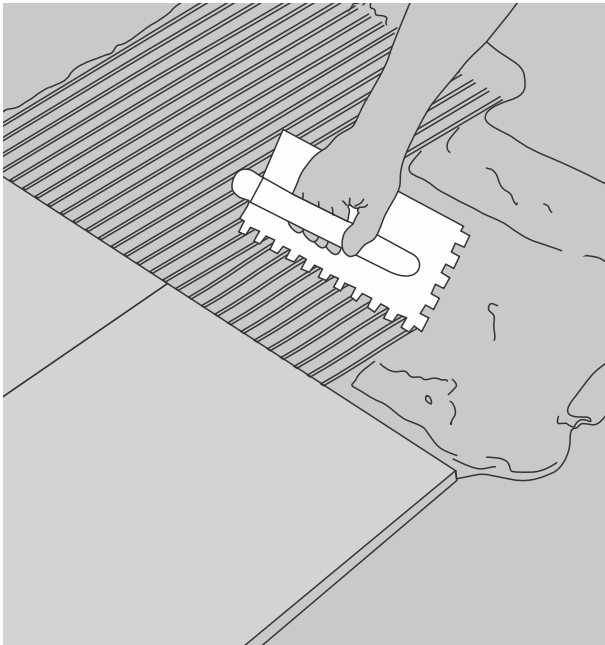

Step 2

Prioritize laying surface preparation through the proper soil layer compaction, subfloor leveling (PCC), completing brick and plasterwork, and waterproofing to protect your tiles from water seepage and long-term deterioration.

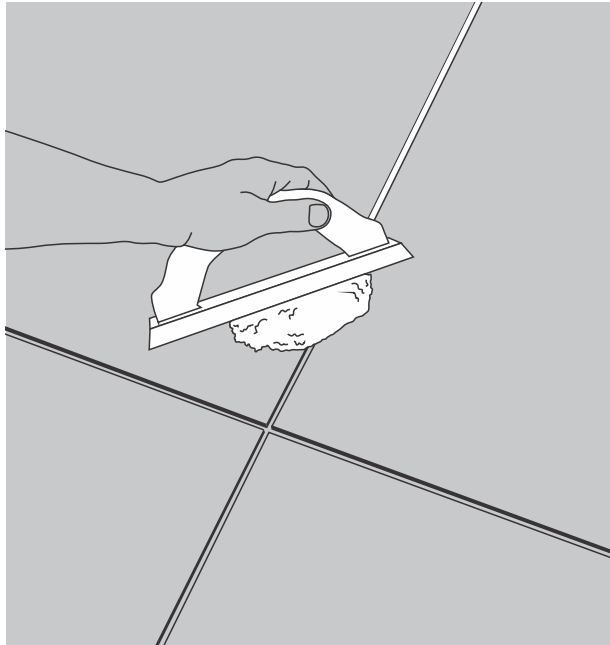

Step 4

Tiles should be set at right angles, and corners should not get bent. Prepare an adhesive (C2TE recommended > 2x2 tile size) plaster in advance by mixing water and mortar in a 1:6 ratio – follow this proportion to prevent cement joints from shrinking. Also, maintain minimal joints between two tiles and wipe off excess material.

Step 5

Tiles should be placed equidistant to each other. Fill in joints with cement grout once installed.

Note :

- Conduct tile fixing work with proper supervision to prevent defects such as cracks, breaking, and de-bonding, which can later incur extra costs. Tiling expenses should be covered in one stage of your home building.

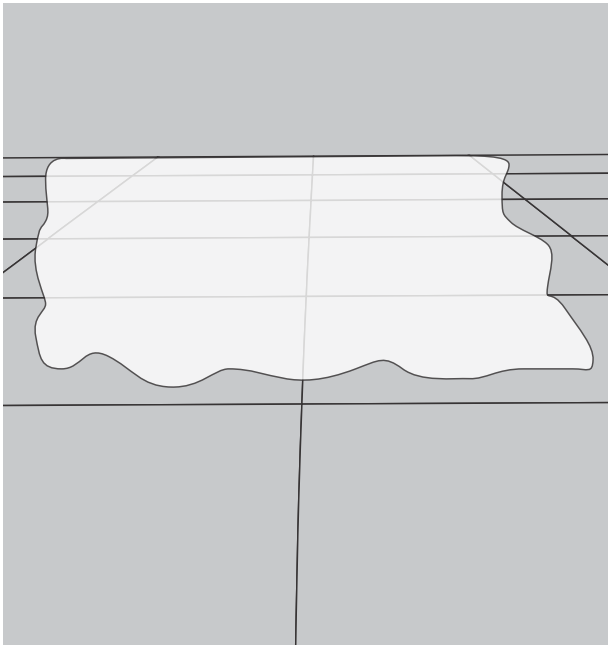

Step 6

Post installation, clean the tiling area with a wet mop and sweep the area. Floors with newly installed tiles should remain untouched for at least a week after fixing.

- Ensure that tiles are properly covered with fluted plastic sheets, plywood sheets, or P.O.P. during painting, electrical, or furniture work at the site to prevent any damage.

Cleaning & Maintenance

Type Of Stain	Chemical Product	Example
Grease	Alkaline - Solvent	Detergent
Oil	Solvent	Ammonia, Baking Soda
Ink	Oxidant - Solvent	Alcohol, Liquid Bleach, Nail Paint Remover
Rust	Acid	Hydrochloric Acid, Vinegar, Red Harpic
Lime	Acid	Descaling Reagent, Hydrochloric Acid
Cement	Acid	Hydrochloric Acid
Wine	Alkaline	Ammonia, Liquid Bleach
Coffee	Alkaline - Solvent	Ammonia, Liquid Bleach
Rubber	Solvent	Alcohol, Thinner
Plaster	Acid	Hydrochloric Acid
Candle Wax	Solvent	Alcohol, Thinner
Iodine	Oxidant	Liquid Bleach
Blood	Oxidant	Liquid Bleach
Ice Cream	Alkaline	Liquid Bleach

Our products are non porous (due to their high quality raw materials, stringent production parameters and state of the art technology), hence any dust or deposited waste cannot penetrate the surface. For most cases only a damp cloth is sufficient for cleaning. Regular cleaning highlights the aesthetic features of the surface and gives it exceptional shine. For highly aggressive cleaning caused by some common food and substances follow the table above.
