ceramics & innovation

We have specialisation in manufacturing high-quality VITRIFIED and WALL TILES for every possible Architectural, Residential and Commercial use.

Colortile is one of the leading manufacturers of Glazed Vitrified Tiles and Ceramic Body Tiles in India. For over a decade now, Colortile has been innovating and manufacturing Floor and Wall Tiles with an aim to excel in the tile field and also to satisfy its ever-increasing client base.

We have installed a production capacity of over 22 million square meters per annum, spread over 3 manufacturing units at Morbi, Gujarat, India. Our factories are well-equipped with state-of-the-art technology and modernised laboratories to keep us ahead of the curve.

The Earth Born Genesis

Somewhere beneath the earth, veins are born before stories are told. Layers settle, minerals move, and colors quietly find their place, charcoal, crystal grey, ocean aqua, bold cherry, and many more, all shaped by time.

That raw beauty becomes GENESIS. And that is exactly what inspired this collection, to capture nature's movement, its quiet drama, and the way stone holds depth without trying too hard.

Then technology steps in and perfects the finish. High Gloss Sinker enhances every vein, sharpens every detail, and deepens every tone, creating surfaces that feel luxurious, look powerful, and transform spaces with effortless impact.

The Diverse Tones of Wonder
